Subject: Web Technology

Lab Report# 7

Title:- Introduction to Form

Submitted by:

Name:-Astha Thapa

Roll no:-2210707

Faculty:-Science & Technology

Year:- 1st

Semester:- 2nd

Submitted to:

Instructor: Er. Simanta Kasaju

Department of Software Engineering

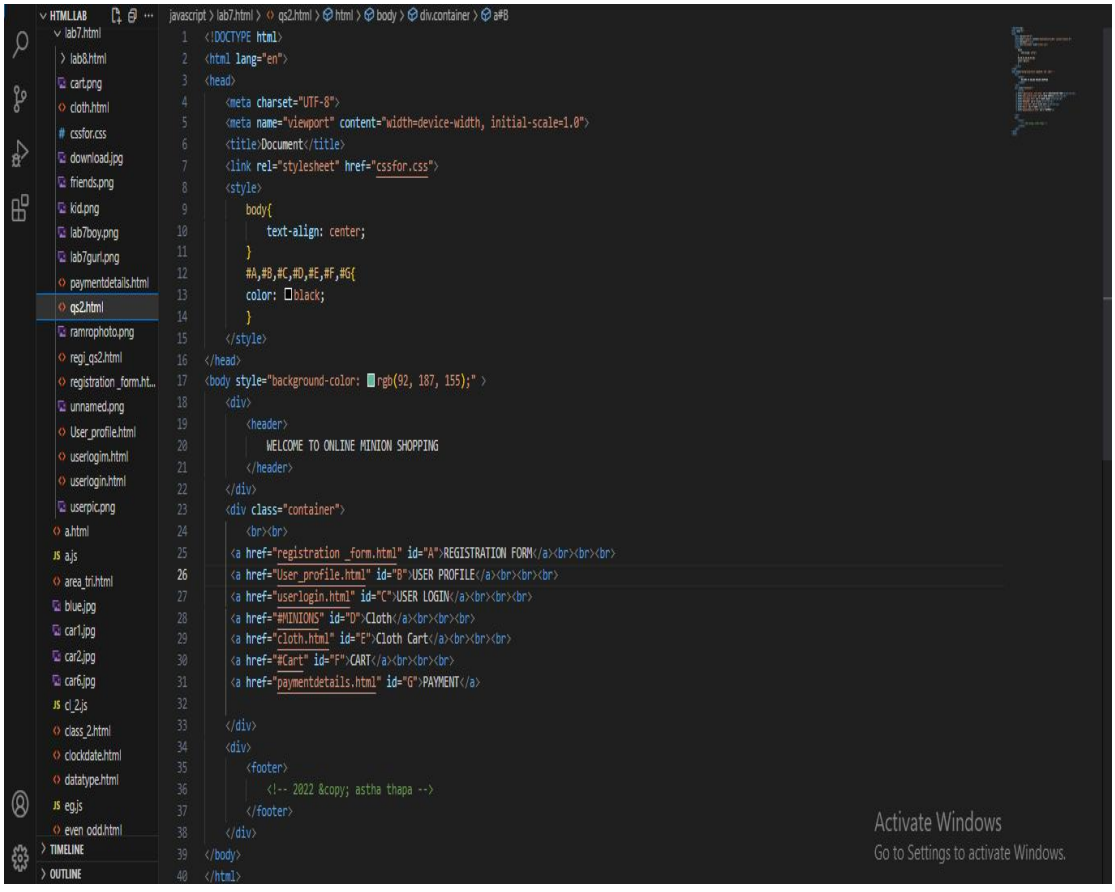
Submission date: 2023/07/24

Theory

Forms are an essential part of web development and are used to collect user input, such as text, check boxes, radio buttons, and more. Properly styling forms not only enhances the visual appeal of your web page but also improves user experience and usability.

We can use attribute selectors:
input[type=text] - will only select text fields
input[type=password] - will only select password fields
input[type=number] - will only select number fields
etc..

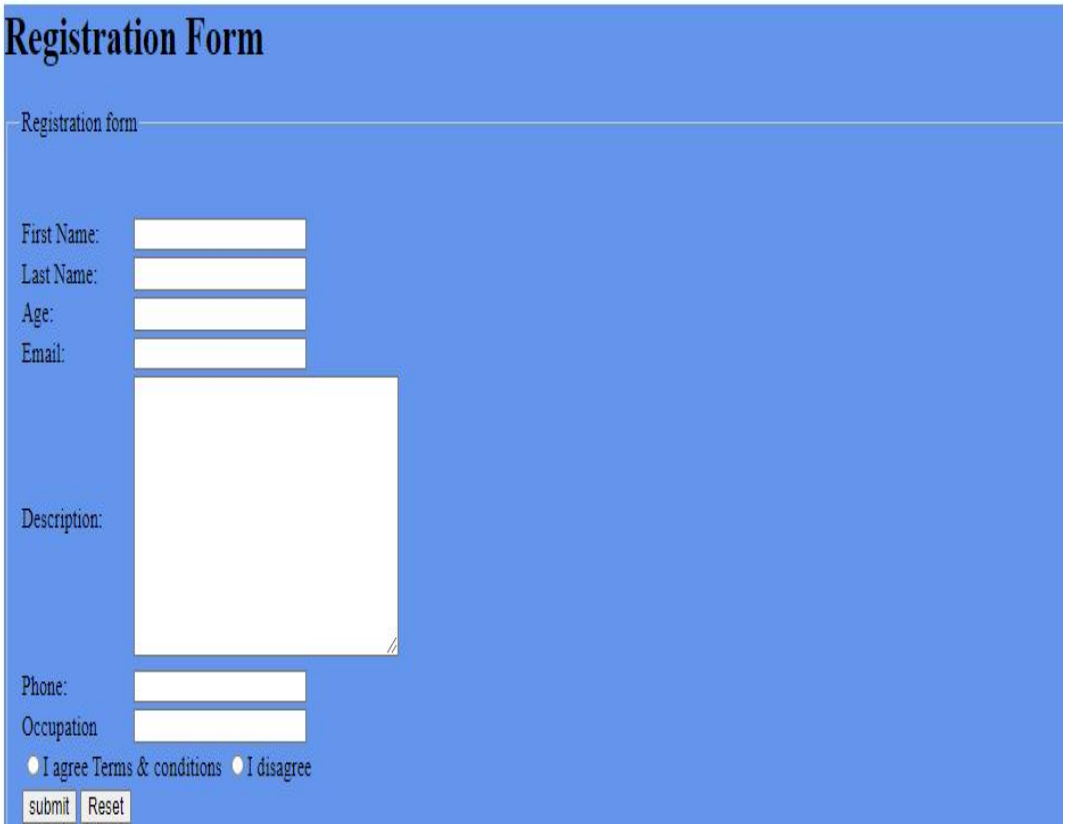
Qs1



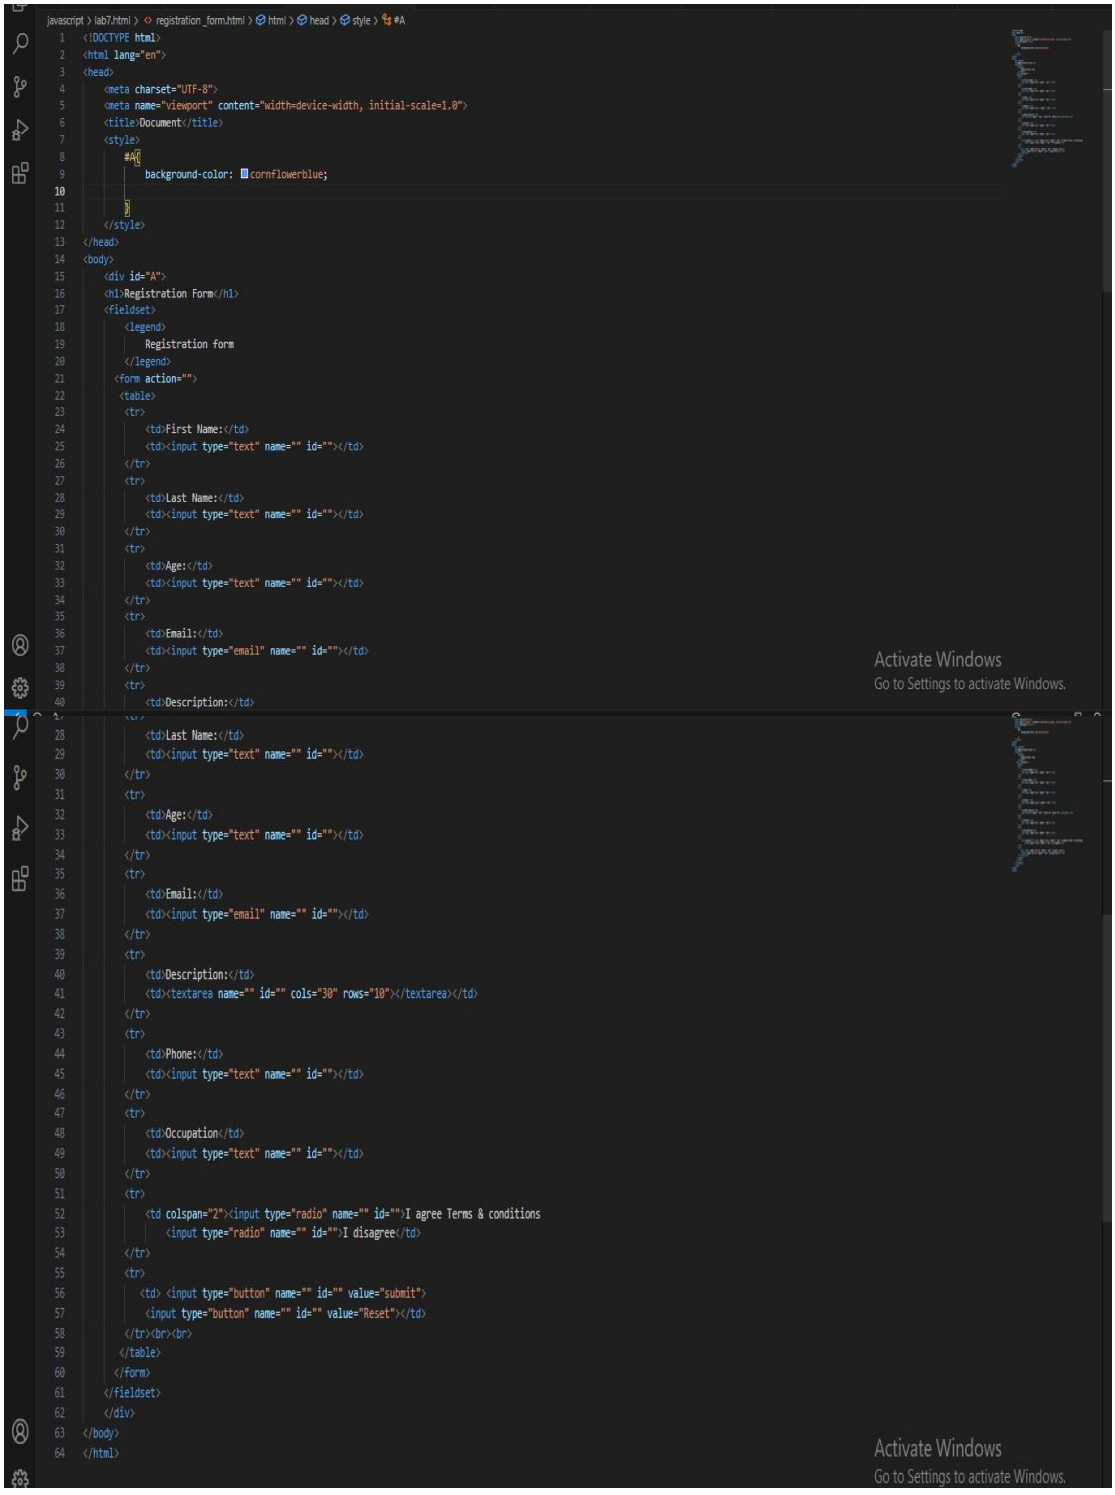
Output:

When clicked at above link form the output is recognized as :-

Registration Form



Code



```
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Document</title>
    <style>
        #A{
            background-color: cornflowerblue;

        }
    </style>
</head>
<body>
    <div id="A">
    <h1>Registration Form</h1>
    <fieldset>
        <legend>
            Registration form
        </legend>
       <form action="">
        <table>
        <tr>
            <td>First Name:</td>
            <td><input type="text" name="" id=""></td>
        </tr>
        <tr>
            <td>Last Name:</td>
            <td><input type="text" name="" id=""></td>
        </tr>
        <tr>
            <td>Age:</td>
            <td><input type="text" name="" id=""></td>
        </tr>
        <tr>
            <td>Email:</td>
            <td><input type="email" name="" id=""></td>
        </tr>
        <tr>
            <td>Description:</td>
            <td>Last Name:</td>
            <td><input type="text" name="" id=""></td>
        </tr>
        <tr>
            <td>Age:</td>
            <td><input type="text" name="" id=""></td>
        </tr>
        <tr>
            <td>Email:</td>
            <td><input type="email" name="" id=""></td>
        </tr>
        <tr>
            <td>Description:</td>
            <td><textarea name="" id="" cols="30" rows="10"></textarea></td>
        </tr>
        <tr>
            <td>Phone:</td>
            <td><input type="text" name="" id=""></td>
        </tr>
        <tr>
            <td>Occupation</td>
            <td><input type="text" name="" id=""></td>
        </tr>
        <tr>
            <td colspan="2"><input type="radio" name="" id="">I agree Terms & conditions
                <input type="radio" name="" id="">I disagree</td>
        </tr>
        <tr>
           <td> <input type="button" name="" id="" value="submit">
            <input type="button" name="" id="" value="Reset"></td>
        </tr><br><br>
       </table>
       </form>
    </fieldset>
    </div>
</body>
</html>
